

St. Mary's Legacy Clinic

Dental Resources

While there may not be comprehensive dental services in your area, there are options that see those without insurance if you are able to plan ahead and travel for an appointment. Options for preventive dental care are more readily available. Feel free to use the following dental look up tool to search for these options and keep reading if you have more emergent needs: <https://www.tn.gov/health/health-program-areas/oralhealth/dental-care-for-tennesseans.html>

This guide is set up by region so that you can see everything available in your greater area within East Tennessee.
